DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 11/25/09, 12/17/08, 9/16/05 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

35 U.S.C. 112 6th Paragraph

5. In reference to claim 10, the Examiner notes that the Applicant may be intending to invoke 35 U.S.C. 112 6th paragraph by using "means for" language reciting function, and not reciting sufficient structure of the means referred to in the specification.

6. The Examiner notes that if the Applicant intends to invoke 35 U.S.C. 112 6th paragraph the Applicant needs to state that on the record and include a specific and detailed description and citation of the exact structure in the specification the means for language is invoking.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1, 7, 15 are rejected under 35 U.S.C. 102(e) as being anticipated by McWethy et al (7033343).

9. With respect to claim 1, McWethy et al discloses discloses a spring retainer for a syringe (Figs 1-6) that comprises a barrel (20), a plunger (90), a spring (70) and a retractable needle (65) , said spring retainer (82, 40) comprising a housing having first (82) and second (40) body members adapted to releasably maintain said spring in a compressed state until rotational disengagement of said first and second body members allow decompression of said spring to facilitate retraction of said retractable needle into said barrel (Figs 1-6; col 7, lns 17-col 8, lns 20);

10. With respect to claim 7 and 15, McWethy et al discloses a syringe comprising a barrel (20), a plunger (90), a spring retainer (82, 40) and a spring (70), to which syringe a retractable needle (65) is mountable so as to be capable of coupling with said plunger for retraction of said needle into said barrel (Fig 1-6), said spring retainer comprising a housing having first (82) and second body members (40) adapted to releasably maintain said spring in a compressed state until disengagement of said first and second body members allows decompression of said spring to facilitate retraction of said retractable needle into said barrel (col 4, lns 60-67, col 7, lns 17-col 8, lns 20). Wherein the spring

is maintained in a compressed state until near completion of the injection (col 7, Ins 17-
col 8, Ins 20).

Allowable Subject Matter

11. Claims 2-6, 8-14, 16-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO 892 Form.
